AI & ML Specialist | Website Developer (Front-End & Back-End:
HTML, CSS, JavaScript, React, Node.js) | Python, TensorFlow, Data
Science | Building Smart & Scalable Solutions

Attock, Punjab, Pakistan

Summary

I am a Computer Science graduate and a dedicated Full Stack Developer with a strong foundation in both software engineering principles and practical web development. With experience in delivering full-cycle remote projects, I specialize in creating robust, scalable, and user-friendly web applications.

My technical expertise includes:

HTML, CSS, JavaScript, PHP, WordPress, MERN Stack (MongoDB, Express.js, React.js, Node.js), Python, SQL, and AI integration.

Over the past few years, I've successfully developed and deployed a wide range of remote projects, including:

Custom Billboard Management System

Doctor Appointment Booking Platform

Investment Management Application

E-commerce Websites

Car Rental Booking System

AI-Powered Urdu Voice-to-Text Tool

Portfolio and small business websites

I have a proven track record of working independently with clients across different time zones, delivering high-quality solutions on time and within scope. My strengths lie in clean code practices, attention to detail, problem-solving, and effective communication in remote settings.

Career Objective:

To contribute to innovative teams and forward-thinking companies by building intelligent, efficient, and impactful digital solutions. I am currently open to remote full-time roles and freelance opportunities worldwide.

Let's connect if you're seeking a reliable developer with a strong technical background and a commitment to delivering value.

Experience

Arch Technologies
